

Learning for Life

HEADTEACHER: Mrs Rosalind Bennett CHAIR OF GOVERNORS: Mrs Anne Howarth

13th February 2026

Dear all,

Please see the attached message below from Tapestry regarding their new app.

Tapestry App Update

We're writing to let you know that the new Tapestry App is now available to download from the Apple App Store, Google Play Store, and Amazon Appstore.

The new app is called Tapestry - Childhood Education Platform.

This new app will fully replace the old one you've been using. We've created user guides to help you get familiar with the new app. From now on, the old app will not get any new features, bug fixes, or security updates. You can continue using the old app for a few months, but you will not be able to reinstall it if you delete it or install it on a new device. By spring 2026, the current app will be retired and will stop working.

To continue using Tapestry effectively, please switch to the new app as soon as possible.

To use the new app, your device must be running:

- iOS: version 15.6 or higher
- Android: version 8 or higher
- Amazon Fire: version 7 or higher.

Thank you for making the switch, and for continuing to use Tapestry.

If you have any questions please come and speak to a member of the team.

Kind Regards,

The Early Years Team
