

## History and Geography

This term we will be exploring the legacy of the Ancient Greek civilisation. This will explore a look at different parts of the civilisation and the lasting impact.

We will also have our field work trip from our learning last term.

## Computing

We will be starting our computing learning this year with consolidation of our e-safety learning, whilst discussing the risks online.

We will also be taking a look at programming via Micro:Bit.

## Music

This half-term we will be looping and remixing our own music, using a range of software to help.

## English

We will be exploring the key elements of persuasive leaflets, considering the language and vocabulary used.

We will be using our knowledge of The Great Barrier Reef to put together an exciting piece of work.

## Ancient Greece

What is the legacy of the ancient Greek civilisation?

## Science

In science, we will be moving onto our new topic of 'Living Things and Habitats'. This will involve looking at different life cycles. We will then be looking reproduction of animals and plants, this will allow us to make comparisons.

## Art & DT

We will be finishing off our work on showing emotions before moving on to exploring food technology. This will include exploring where our food comes from and how to amend a recipe.

## PE

This half-term we will be practicing different athletic skills, on a Monday with Mr Kearns, and a focus on rounders and the associated skills, on a Thursday with Mrs Rea.

## Mathematics

In maths we will be taking a closer look at shapes including angles, 3-D shapes, and using a protractor.

We will then be moving onto position and direction, where we will be focusing on translating and reflecting shapes and coordinates.
