

## Geography

In geography we will get KS3 ready by carrying out a geographical enquiry.

## Computing

This term, we will be concluding our work on big data and will focus on esafety as part of our transition work.

## Music

After continuing our topic on Baroque opera, we will be reading notation to learn songs and perform them as part of our end of term show, perhaps even writing a song of our own!

## English

We will be finishing our suspense narrative, writing a last information report and poems about our time at Flyford.

Grammar and punctuation learning will include consolidation of all grammar, punctuation, spelling and vocabulary learning to prepare for the next step.

## Science

In science, we will conclude our circulatory system topic with a heart dissection - non-mandatory of course! Then, we have an exciting topic all about adaptation. Within which we will study evolution, natural selection, fossils and the work of Charles Darwin and Mary Anning.

**Enterprise and Transition!**  
Can we design and carry out an independent enquiry?

## Mathematics

In maths we will be finishing our year six curriculum before moving on to using our maths skills to create budgets and discuss profit margins.

Every day we will continue to practice fluency of our mental and written arithmetic and our reasoning skills.

## Art

This term we move back to an art focus. The children will be learning about sculpture. Their learning will culminate with the creation of a Flyford memories box sculpture. Shoe boxes needed please!

## PSHE

We will continue our economics topic this term with an additional focus on transition and our unique identities.
