

Art/Design

- Make a model of the coast! Your model could be made from clay, a shoe box or anything you like and could include animals, buildings and plants found there.
- Draw a picture of a plant and label the various features of it!
- Paint a coastal scene!

Year 1/2 Home Learning

What Can We See At The Coast?

(due date: Wednesday 15th July)

Maths

- Go to a shop and buy something using money! Take pictures of your trip so we can see you using money!
- Using your knowledge of time, make a storyboard of your day! It could be pictures of what you were doing at certain times of the day.
- Show us one of your favourite journeys! Using positions and directions, create a map of a journey you like to do. It could be to the park, to school or anywhere you like!

English

- Write a short story that is set at the coast.
- Write a list of adjectives that you would use to describe the coast.
- Write a description of a plant. Include as many adjectives as you can and allow us to guess what your plant must be!

Science

- Continue growing your sunflowers! Well done to everyone who has planted their sunflower seeds, we are loving the updates!
- Take pictures of your favourite plants that you see while out! You could even create a collage from all your pictures!

Reading

- Read a story that is set at the coast and write a book review!
- Share a book review on a story book that involves a plant. The main character could be a plant or it could be set in a place full of plants.
