The Alps

What is life like in the Alps?

History and Geography

This term we will be exploring The Alps and their position on the globe, including how many countries they cross.

We will be exploring the climate found on the Alps and why they are popular with tourists. Part of our studies will include how climate change is impacting on the Alps.

Computing

We will be taking a dive into how technology can be used to make music with Scratch.

We will also be continuing with consolidation of our e-safety learning, whilst discussing the risks online.

Music

We will be exploring the genre of blues music, delving into the history of the genre and singing our own interpretation.

Towards Christmas we will be singing a range of songs for our production.

English

We will be writing a traditional tale based on a well-known story and using 'The Lost Happy Endings' to support this.

As part of this we will be exploring what elements are included in a traditional tale and how they are used.

Science

In science, we will be thinking about all things, Space! This will include a focus on the planets and stars in our Solar System.

We will be exploring how views of our planet have changed over time. We will also be considering how night and day are created.

Art & Design

We will be studying interactive and installation art and considering why this is made. The children will then get a chance to create their own installation artwork.

PE

On Monday, we will be strengthening our knowledge and skills within Netball.

On Thursday, children will be continuing to build upon their Tag-Rugby skillset, with Mrs Rea.

Mathematics

In maths we will be concluding our unit on multiplication and division. We will then be starting our learning with our first block of fractions, exploring the concept and becoming familiar with the ideas.

Every day we will practice fluency of our mental and written arithmetic and our reasoning skills.
